

Job Offer

SAP Project Owner support (AMOA)

Date: February 17, 2026

Job role	SAP Project Owner support (AMOA)
Department	Supply Chain & Operations
Working place	Meyreuil - France
Starting Date	ASAP

Missions

Reporting to the Supply Chain & Operations management team, you will join a dynamic and international environment as a SAP Project Owner Support (AMOA), playing a key role in structuring and optimizing our Supply, Production, and Finance processes.

You will contribute to the deployment and performance of our ERP system in a high-tech semiconductor environment, supporting the development and industrialization of post-quantum secure chips.

At the crossroads of Production, Supply Chain, and Finance, you will drive ERP performance, ensure production flow traceability and valuation, and support the transition toward next-generation systems.

Main responsibilities

- Structure and coordinate SAP projects in collaboration with internal business representatives (Finance, Supply Chain, Production) and external SAP consultants.
- Define and write functional specifications with key users.
- Arbitrate between SAP standard solutions and custom developments.
- Ensure proper interfaces between SAP and Production / MES systems.

Implementation & Project Follow-up

- Manage relationships with SAP consultants and internal key users.
- Monitor implementation on pilot and production sites.
- Establish project schedules and ensure follow-up.
- Participate in system integration within the overall transformation program.

Electronic versions are uncontrolled unless directly accessed from the QA Document Control system.

Printed version is uncontrolled except when stamped with 'VALID COPY' in red.

External release of this document may require an NDA.

Job Offer

SAP Project Owner support (AMOA)

- Organize and contribute to system setup and deployment.
- Train key users and end users.
- Audit process implementation and drive continuous improvement initiatives.
- Support new production processes during ramp-up phases.
- Provide user support and monitor field incidents during rollout phases.

Tool Ownership

- Act as the day-to-day SAP system owner and user support contact.
- Serve as the point of contact for IT audits (including SOX compliance): extract control files, implement corrective actions, and ensure process updates.
- Manage the transition to SAP S/4HANA in coordination with Finance, Supply Chain, R&D, and Production teams.

Requirements

Educational background	Master's degree or Engineering degree in Industrial Engineering, Supply Chain, or Business.
Experience	Experience on a SAP project related to FI/CO/SD/MM/PP modules or on MES implementation in a manufacturing environment. Experience in semiconductor or high-tech industries would be a strong advantage. Additional background as a Financial Controller, Auditor, Demand Planner, or Production Control Engineer would be appreciated.
Skills	Strong functional knowledge of SAP modules related to production flows and integration with Finance & Supply Chain. Good understanding of SAP & MES interdependencies. Knowledge of SAP S/4HANA is a plus. Ability to manage SAP integrators and external partners.
Others	Fluent English required. Spanish would be an advantage. Strong communication skills, including with international stakeholders. Structured, analytical, collaborative mindset with a strong problem-solving orientation.

Job Offer

SAP Project Owner support (AMOA)

Why Join Us?

- Join a fast-growing, NASDAQ-listed technology company with strong international exposure.
- Contribute to the development and industrialization of next-generation post-quantum secure semiconductors.
- Play a central, transversal role at the heart of Production, Supply Chain, and Finance transformation.
- Work in a high-tech manufacturing environment with cutting-edge semiconductor technologies.
- Be part of a collaborative and innovation-driven culture.
- Enjoy flexible working conditions with two days of remote work per week, in a pleasant environment near Aix-en-Provence.
